KSHITIJ SINGH

FREELANCE HOSPITALITY CONSULTANT

Hotel Development • Operations • Market Research

Practical insight for hospitality owners, investors and hotel development teams.

CONSULTANT PROFILE | 2026

Professional Profile

I am an independent freelance hospitality consultant with a background in hotel and hospitality administration, international business, consulting projects and hotel operations. I work with hospitality owners, investors and development teams to assess opportunities, structure plans and address practical challenges across the hotel lifecycle—from early-stage concept evaluation and market research to pre-opening coordination and operational improvement.

My approach combines analytical thinking with an understanding of the realities of hotel operations. I focus on clear recommendations, coordinated execution and guest-centred operating practices, tailored to each property's objectives and stage of development.

Professional Background

My foundation in hospitality began with a Bachelor of Hotel and Hospitality Administration from IHM Pusa, New Delhi, where I developed an understanding of hotel departments, guest service and day-to-day operating standards. I gained practical exposure at Taj Palace, New Delhi, working across front office, accommodation operations, food production and food and beverage services, alongside exposure to marketing and human resources.

I later completed a Master of International Business at the University of New South Wales (UNSW), Sydney, broadening my perspective on business strategy and international markets. During my studies, I contributed to consulting projects involving guest-experience improvement at Raffles Jakarta and strategic analysis for Aurecon and Transgrid.

Education

Master of International Business

University of New South Wales (UNSW), Sydney

Bachelor of Hotel and Hospitality Administration

Institute of Hotel Management, Catering Technology & Applied Nutrition, Pusa, New Delhi

Experience

The Gauri Hotels and Resorts — Managing Director

I lead and contribute to the development and operational planning of a multi-property hospitality portfolio that includes heritage properties, a branded hotel project and multiple banqueting venues. This work gives me a practical perspective on aligning project coordination, operational requirements and guest experience.

Raffles Jakarta, Indonesia — Guest Experience Consulting

As part of a UNSW consulting project, I contributed to guest-experience analysis using online guest feedback and review analysis to identify service-improvement opportunities.

Aurecon & Transgrid, Sydney — Strategy Consulting Project

I worked on a UNSW live project examining rooftop solar impacts on grid stability, policy and regulatory options, and demand-management strategies.

Taj Palace, New Delhi — Hotel Operations Training

I gained exposure to front office, accommodation operations, food production, food and beverage services, marketing and human resources.

Consulting Services

Hotel Feasibility & Market Research

I support market and competitor assessments, demand and positioning reviews, concept evaluation, and research to inform hospitality investment decisions.

Hotel Development & Project Coordination

I provide owner-side coordination support, operational planning inputs, reviews of guest and back-of-house requirements, and tracking of pre-opening priorities.

Brand Affiliation & Franchise Support

I help assess initial brand fit, compare operating models, prepare information for discussions with hotel brands, and coordinate information during the affiliation process.

Pre-Opening Planning

I assist with pre-opening checklists, departmental requirements, staffing inputs, SOP frameworks, procurement planning support, and operational-readiness tracking.

Hotel Operations & Service Improvement

I review operating processes, departmental coordination and guest-service delivery to identify practical opportunities to improve consistency and efficiency.

Food & Beverage and Banqueting

I provide planning inputs for restaurants, kitchens, bars and banquet venues, including service flows, staffing considerations and kitchen-to-service coordination.

Guest Experience & Service Quality

I help review guest journeys and feedback, and develop service-standard recommendations and improvement initiatives.

Business Reports & Presentations

I prepare or support concept notes, market-study reports, management presentations, project summaries and structured recommendations for stakeholders.

Who I Work With

- Hotel owners and independent operators
- Hospitality investors and property developers
- Heritage hotels, resorts and destination properties
- Banquet and event-venue operators
- Businesses exploring hotel-brand affiliation or franchise opportunities
- Teams preparing to launch a new hospitality project or improve an existing operation

How I Work

Understand — I clarify the property context, business objectives, constraints and key decisions.

Assess — I review available information, market context, operational needs and relevant stakeholder inputs.

Recommend — I present practical options, priorities, risks and a clear proposed way forward.

Support — I assist with agreed deliverables, coordination and progress reviews within the defined scope.

Engagement Options

I take on assignments such as focused research studies, feasibility or concept reviews, defined pre-opening workstreams, operational reviews and project-based advisory support. I agree on the scope, deliverables, timelines and fees with each client before work begins.
